

Best-in-class maps meets best-in-class connectivity

The stunning Rockwell Collins Airshow now available on the Gogo network

Moving maps are the most popular feature of any inflight entertainment system. Understanding flight progress, geographic location and scheduled arrival time is deeply satisfying to travelers of all ages.

Gogo has partnered with Rockwell Collins to offer Airshow® Moving Map. Now, passengers can enjoy stunning 3D graphics, greater geographic detail, unparalleled global coverage and an intuitive interface. Best of all, for Gogo AVANCE and Gogo ATG/CTR customers no additional hardware is required, which makes it an easy and affordable solution for enhancing the passenger experience.

3D MAPS AND ETA. IN BEAUTIFUL HD.

Adding Airshow to a Gogo AVANCE or Gogo ATG/CTR system is an ideal solution for aircraft of all types and sizes: from turboprops and light jets, all the way to VVIP. (Not available for Gogo ATG/UCS 5000.)

- > Airshow Mobile 2 is the most advanced 3D map in the market
- > 3D interactive satellite map views
 - Panorama mode allows the passenger to see the world as if looking through a glass cabin
 - Portrait mode allows for a quick summary of key flight information
 - Intuitive and seamless user interface incorporating gesture based navigation
 - Points of Interest (POI) data for cities around the globe
 - HUD view that reacts to Pitch and Roll with the aircraft
- > Native apps for iOS & Android phones and tablets
- > One time activation allows multiple users within a cabin.

HOW IT WORKS.

- > Activate your Airshow account (more below)
- > Passengers download the Airshow Mobile 2 app from iTunes or Google Play
- > Everyone onboard can enjoy the map experience on their phone or tablet via the app
- > Passengers can access Airshow on the ground, as well as in the air

Some installation restrictions may apply. ATG systems require specific ARINC labels to be connected and may require installation. For more information, please review the ATG install manual.
