

CUSTOMIZING YOUR GOGO VISION USER INTERFACE

PROMOTE YOUR BRAND WITH INFLIGHT ENTERTAINMENT

Add your own custom image to the Gogo Vision landing page and create a personalized, branded experience for your passengers. ↓

CREATING A BRANDED IMAGE FOR THE GOGO VISION LANDING PAGE

The Gogo Vision landing page has specific image requirements to ensure your image displays appropriately on the passengers' viewing device(s). The following sizing and resolution specifications help you create the best image for the Gogo Vision interface.

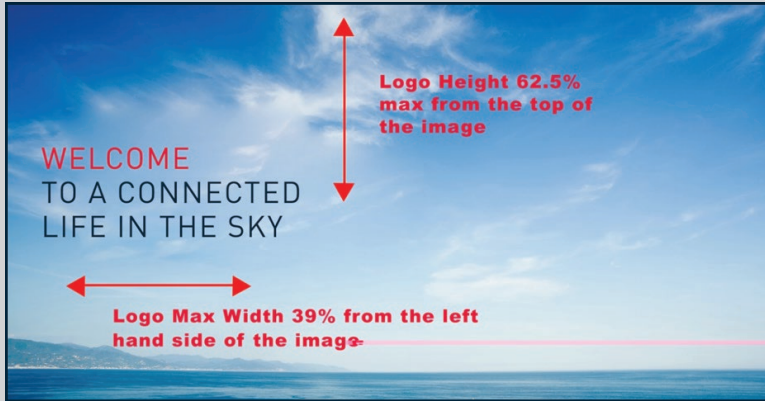

IMAGE FILE REQUIREMENTS

- **File type:** JPG or PNG
- **File size:** 2 MB maximum

Once your image is ready, please contact Gogo's Customer Operations team at +1-303-301-3278 or bacustomerservice@gogair.com and they will upload it to your Vision interface via DASH.

RECOMMENDED DIMENSIONS

Choose your image dimensions according to the largest device used. If customers plan to use Apple laptops with retina display, we recommend the maximum size to ensure clarity.

- **Maximum:** 2700 pixels (W) x 1400 pixels (H)
- **Minimum:** 1440 pixels (W) x 747 pixels (H)

LOGO PLACEMENT

Place your logo on the upper-left corner of the image within the required percentages of the image dimensions. This ensures the logo is not hidden on different devices.

- **Width from left:** 39% (maximum)
- **Height from top:** 62.5% (maximum)

For example, if the image is 1440 pixels (W) x 747 pixels (H), the logo should be constrained to be 562 pixels from the left side of the image and 467 pixels from the top of the image.

ABOUT GOGO BUSINESS AVIATION

Gogo Business Aviation is today's leading provider of in-flight connectivity solutions that increase the productivity, safety, and enjoyment of the business aviation travel experience. A trusted brand in airborne communications, Gogo Business Aviation is a factory option at every major business aircraft manufacturer and installed on the world's largest fractional ownership fleets.
