

GOGO AVANCE

With Gogo AVANCE
Now, you can.

Connect everyone. Control everything.

Connectivity that works
as fast as you do

We invented inflight connectivity. Now, we're reinventing it.

The Gogo AVANCE platform is the brains on board that powers all Gogo systems. Now, you can personalize, control and deliver a fully integrated cabin experience - for any aircraft type, size or budget. AVANCE makes connectivity easier and more powerful for passengers to use, while giving operators unprecedented flexibility and customization capabilities.

Gogo AVANCE is the heart of our suite of platform-based products, including complete broadband network systems and Smart Cabin systems for all aircraft types and sizes.

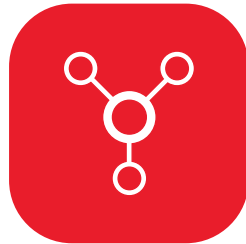

AVANCE™

**Smart router
(802.11ac)**

**Entertainment
& information**

**Network
management**

**Gogo
Text & Talk**

**Cloud-based
service & support**

The revolutionary Gogo AVANCE platform

One solution that brings it all together.

The Gogo AVANCE platform is a revolutionary combination of hardware and software, resulting in exceptional “brains on board” technology that powers all Gogo systems.

Now, you can personalize, control and deliver a fully integrated cabin experience - making connectivity easier and more powerful for passengers to use, while giving operators unprecedented flexibility and customization capabilities.

Smart router (802.11ac)

The latest in smarter router technology gives you dual-band 802.11ac Wi-Fi (2.4GHz and 5.0GHz) and improves performance throughout the cabin.

Gogo Text & Talk

Gogo Text & Talk lets everyone on board stay connected using their own phone to make calls and text while airborne.

Entertainment & information

Gogo Vision entertains and informs passengers with on-demand movies, flight maps, TV, news, magazines, and destination weather. All without unexpected streaming costs. And operators can brand the experience.

Cloud-based service & support

AVANCE connects you to cloud-based service and support features: remote service, diagnostics and activations, Gogo DASH app for real-time system status and info, and Gogo Cloud for Gogo Vision content updates.

Network management

Network management improves connectivity quality and makes your services seamless to use – whether you have one network or multiple.

The Gogo AVANCE suite of solutions

	NORTH AMERICAN CONNECTIVITY SYSTEMS Full AVANCE platform plus Gogo Biz 4G air-to-ground network connectivity, with service across the U.S. and large portions of Canada and Alaska.				GLOBAL CONNECTIVITY SYSTEMS Full AVANCE platform plus high-speed satellite network connectivity.	SMART CABIN SYSTEMS Designed for global operators who already have connectivity, or simply want an easier and more engaging in flight experience, SCS solutions bring the power of the AVANCE platform to aircraft of any size, flying anywhere worldwide.
