

Gogo AVANCE L3

Productive, flexible, affordable Gogo Biz connectivity

Gogo AVANCE L3 taps into the proven Gogo Biz network, and lets you stay seamlessly connected to your professional and personal life during flight. No matter your aircraft size, you can now give everyone on board powerful inflight internet and entertainment that works everywhere you go. All from a single, affordable, lightweight, customizable solution.

FEATURES

Reliable, high-performance Gogo Biz inflight internet

- Enables email, web browsing, corporate VPN access, texting, and voice calls*
- Seamless coverage in the continental U.S., plus portions of Canada and Alaska
- Three service levels to choose from, depending on connectivity needs and device requirements

Advanced smart router optimizes the in-cabin experience

- 802.11ac dual-band router (5GHz & 2.4GHz) maximizes bandwidth and optimizes in-cabin Wi-Fi performance
- Dynamic, multi-bearer data and voice management

Terrestrial modem

- Complimentary internet on the ground in 100+ countries.

PBX auto attendant manages and personalizes voice calls

- When combined with an Iridium, Inmarsat and/or Gogo Biz/Gogo Biz 4G system, manages and routes voice calls for ease of use and access
- Auto attendant can be enabled to greet people calling the aircraft, and allows caller to ring cockpit, the cabin or all phones

Gogo Vision inflight maps, entertainment and information

- Customizable landing page
- Moving maps
- Destination weather
- Bloomberg news clips
- Magazine library (subscription required)
- Licensed movies and TV episodes (subscription required)
- Multi-language audio tracks and user interface selection
- Gogo Cloud automatic content updates available at any Gogo Cloud global location
- One touch access to select Content Management Systems

Gogo Text & Talk for personal smartphone use

- Use your personal smartphone to call and text in the air; works with your own phone number

Award-winning service and support

- 24/7/365 monitoring and global support
- Remote service activations
- Gogo DASH tools provide visibility into the health of Gogo systems

Dimensions and weight

- MCU size: 3MCU
- LRU dimensions: 4.18"W x 8.38"H x 16.24"D
- LRU weight with mounting tray: 15.0LB

Antennas:

- Two (2) omni-directional antennas
- Externally mounts in forward and rear positions to the fuselage
- Antenna dimensions (per antenna): 5.9"L x 4.2"W x 6.5"H

Electrical characteristics

- Voltage range: 20.5 VDC to 32.2 VDC
- Maximum power: 115 W @ 20.5 V input with heaters on

Other:

- Ethernet ports: FE: 9, Gigabit: 2, POE: 4
- Discrete I/O: 10
- A429 Rx Ports: 6
- Installation: Inside/outside pressure vessel
- Cooling fan: External to LRU
- Mounting options: Tray with fan assembly

*Streaming required? Consider the Gogo AVANCE L5 system, which connects to the Gogo Biz 4G network.

CHOOSE YOUR SERVICE LEVEL

Gogo AVANCE L3 allows you to scale internet capabilities and number of supported devices up or down to suit changing budgets and needs—without swapping out your LRU.

	CORE	PLUS	MAX
Devices (Maximum)	5	7	25
Internet capabilities	Optimized for light internet use *	Optimized for full internet use (no streaming) **	Optimized for full internet use (no streaming) **
Email	Fully supported, with file attachments		
Gogo Vision – Information services	Flight progress, weather information, Bloomberg news clips, file sharing, RSS feeds, and customizable landing page (included at no add'l charge)		
Gogo Vision – Entertainment	Licensed movies, TV, and magazine library (subscription required)		
Gogo Text & Talk	Use your own phone to make calls and text (subscription required for monthly/annual plans)		
Available service plans	<ul style="list-style-type: none"> Hourly*** Monthly Annual 	<ul style="list-style-type: none"> Monthly Annual 	<ul style="list-style-type: none"> Monthly Annual

* AVANCE L3 Core supports email, voice and internet browsing capabilities limited to websites that are light on content: such as minimal imagery and graphics, and no embedded video. On average, customers with Core configurations connect 4 devices per flight and use 30% less data than Plus and Max configurations.

** If streaming is required, consider the Gogo AVANCE L5 system, which connects to the Gogo Biz 4G network.

*** If you're considering an hourly plan for connectivity service, please be aware that any device connecting to the internet via the cabin Wi-Fi network triggers the \$99 hourly charge, even if minimal data is passed. This may result in data charges when using Gogo Vision. The only way to help prevent these internet connections is to ask your dealer to install all bearer Enable/Disable discrettes during system installation.

PRICING

Hourly data plans – available for Core package

PLAN	PRICE	OVERAGE
Hourly – Gogo Biz*	\$99.00 / hr	N/A

Annual pre-paid data plans**

PLAN	PRICE	OVERAGE
