

Top 7 innovations of 2017

2017 was a big year in business aviation connectivity. Our customers continued using Gogo innovations to pioneer a world that flies smarter. Of all the ways we helped aviators connect passengers, pilots, and planes in 2017, here are our top 7.

1

Gogo AVANCE platform

Our software revolution is the first to allow operators to customize their connectivity and control the entire experience.

2

AVANCE SCS Elite and SCS Media

Stunning, on-demand inflight entertainment and information for every seat on aircraft of every size.

SCS

3

Gogo AVANCE L5

Unleashing the Gogo Biz 4G experience to rapid adoption and rave reviews.

4G

4

Gogo Ku

Connecting global aircraft to the smartest, fastest, most sustainable satellite broadband network and technology.

Ku

5

Gogo DASH

7,420 downloads and counting. DASH gives crew real time, comprehensive dashboard visibility into their systems and services.

6

Field Service Engineers

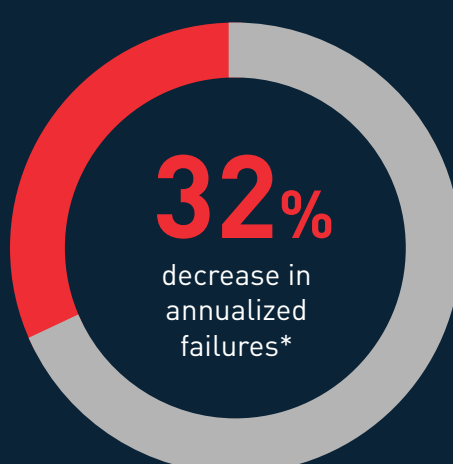

We more than doubled our number of Field Service Engineer experts to help customers on site, wherever and whenever they need us.

7

Quality you can count on

Record high in systems shipped.
Record low in system faults.

*2014 to 2017

We never stop innovating.
